Your new Crenshaw is good! Glad you got what I suggested and could add what Gerry got.

I made a few notes I think you can read, one where I remembered incorrectly, from his 78, and you can take that out and limit it to what you saw and heard on 20/20. *

-There is one point where after mentin suits he has "Secret Service" so I'd eliminate those few words. Not necessary and you can substitute what I suggested, "his way of slurring the Secret Service."

* He could not have had the tie on without the shirt in place.

Hastily,
